

PATHAYAM - THE GREEN STORE						
Version : Vo				Tested by : Revathy Krishnan		
Verified By : Ebin Kurian				Tested Date : 16/09/2025		
Environment details : Android, Google Chrome, Windows				Module Name : Register & Login Page		
TEST CASE ID	TEST CASE DESCRIPTION	TEST PROCEDURE	TEST DATA	EXPECTED RESULT	ACTUAL RESULT	STATUS
PTM_RGL_46	Ensure the Registration page is displayed properly on mobile devices without UI issues.	1.Open Pathayam.in in a mobile browser. 2.Navigate to the Registration page & observe.	---	The Registration page should load on mobile without any UI issues.	The Registration page loads correctly with all elements visible and responsive.	PASS
PTM_RGL_47	Verify all required fields & Register button are present on the Registration page.	1.Open Pathayam.in in a mobile browser. 2.Navigate to the Registration page. 3.Observe all fields.	---	All the listed fields and the Register button should be visible and enabled.	All fields and the Register button are visible & enabled.	PASS
PTM_RGL_48	Ensure the Registration page clearly indicates which fields are mandatory and which are optional.	1.Open the Registration page. 2.Check each field & observe mandatory fields are marked with a red star.	---	Mandatory fields should be marked with a red star (*) and optional fields clearly indicated.	No fields are marked with a red star (*) or indicated as mandatory/optional.	FAIL
PTM_RGL_49	Ensure registration proceeds successfully when all fields are entered with valid values.	1.Open the Registration page. 2.Enter valid inputs in every fields. 3.Tap on Register button.	V RK Nair, rejhsfv@gmail.com, 7278617877,7265687766, tirakat,mosque,695009/attukal,1234.	Registration should be successful, redirecting the user to the confirmation or home page with a success message displayed.	Registration is successful, but no success message is displayed.	FAIL
PTM_RGL_50	Ensure registration does not proceed when one or more mandatory fields are left blank.	1.Open the Registration page. 2.Leave one or more fields empty & fill other fields. 3.Try to register.	V RK Nair,<empty>, 7278617877,<empty>,tirakat, mosque,682001,1234	Registration should not proceed, and the user should be notified to fill all fields.	When submitting the form with empty fields, the validation message appears only near the first blank field(email).	FAIL
PTM_RGL_51	Ensure all input fields contain proper placeholder text so users know what to enter.	1.Open the Registration page. 2.Check if each field displays a placeholder.	---	All fields should have meaningful placeholder text that guides the user on what to type.	Placeholders are there in every fields & disappears once the user starts typing.	PASS
PTM_RGL_52	Verify that the Name field accepts alphabets.	1.Open the Registration page. 2.Enter a valid alphabetic name and tap Register.	Revathy Krishnan	The name with alphabets should be accepted.	A valid alphabetic name is accepted in the name field.	PASS
PTM_RGL_53	Verify that the Name field does not accept numbers and blank spaces.	1.Open the Registration page. 2.Enter only digits with blank spaces in Name field and tap Register.	556 788 565 776	Numbers and unwanted blank spaces should not be accepted.	Numbers & blank spaces are accepted in registration.	FAIL
PTM_RGL_54	Verify that the Name field restricts input to a reasonable maximum length.	1.Open the Registration page. 2.Enter a very long string in the Name field and tap Register.	ghhsaaaaagxbnBXnnnnnnnnnn nnnnnnnnnnnnnnnnnnnnnnnj kaaaaaaaaaadghkhasgchsgdc hsgbxksjabsckhsckjsadxkjaskj shbhcmhsbc	The system should restrict input to a maximum (e.g., 30–50 characters) and show a validation message if exceeded.	Name field accepts infinite characters without restriction.	FAIL
PTM_RGL_55	Verify that the email field consistently shows a proper validation message when an invalid input is entered.	1.Open the Registration page. 2.Enter an invalid email id and try to register.	abcgmail.com,abc@gmailcom, abc@mailcom,abc@gmail. conbhjgbhjgm	A proper validation message should be displayed near the email field.	Registration proceeds even with invalid domain.	FAIL
PTM_RGL_56	Verify that only existing email IDs are accepted during registration.	1.Open the Registration page. 2.Enter non-existing email ID in email id field.	email ID: vdvdsvbnvx@gmail.com	The system should check if the email ID exists through verification/OTP.	The system accepts non-existing email IDs during registration.	FAIL

	PTM_RGL_57	Verify that the Mobile Number/Alternate Contact Number field restricts input to a maximum of 10 digits.	1.Open the Registration page. 2.Type more than 10 numbers in mobile no fields & observe.	Mob no:92672627877772, Alternate mob no: 7267888577687	The Mobile Number field should accept a maximum of 10 digits only.	The extra numbers are displayed on screen,not effectively enforcing a 10-digit limit.	FAIL
	PTM_RGL_58	Verify mobile number/Alternate Contact Number field does not accept more than 10 digits.	1.Open the Registration page. 2.Type more than 10 numbers in mobile no fields & try to register.	mobile no: 957655868777777, alternate no: 726788857768734	A validation message should be displayed & and registration should not proceed.	When more than 10 digits are entered, a validation error message is displayed.	PASS
	PTM_RGL_59	Verify Mobile Number/alternate contact number field accepts only numeric input.	1.Open the Registration page. 2.Try to enter alphabets in mobile no. fields. 3.Fill all fields & try to register.	---	Only numeric keypad should be enabled.	Only the numeric keypad is enabled, and letters cannot be typed.	PASS
	PTM_RGL_60	Verify system validates existing mobile numbers in Mobile Number/alternate contact number fields.	1.Open the Registration page. 2.Enter any mobile numbers in mobile no. fields. 3.Fill all fields & try to register.	mob no: 9999999999, alternate no:5555500000	System should not allow registration without verifying mobile ownership via OTP.	No OTP verification is performed & any mobile number is accepted.	FAIL
	PTM_RGL_61	Verify that the system shows an error page when trying to register with a mobile number that already exists.	1.Open the Registration page. 2.Try to register with an already registered mobile no. 3.Observe.	Primary contact no: 7552516677	The system should display an error page and prevent registration.	The system redirects to an error page showing "Your contact number already exists".	PASS
	PTM_RGL_62	Verify that after already existing mobile number error page, the form retains the entered data for resubmission.	1.Open the Registration page. 2. Try to register with an already registered mobile no. 3.Observe the error page & navigate back to the registration form.	Primary contact no: 7552516677	Previously entered data should remain populated in the form.	The user modifies the mobile number without retying other data and resubmit.	PASS
	PTM_RGL_63	Verify that mobile number and alternate contact number cannot be the same.	1.Open the Registration page. 2.Enter same numbers in both mobile & alternate no fields & fill all fields. 3.Tap on Register.	Mob no:7552516677 Alternate no:7552516677	The system should display a validation message and prevent using the same number in both fields.	The system accepts the same number in both fields without any error.	FAIL
	PTM_RGL_64	Verify that the Address field provides proper validation for invalid input & character length.	1.Open the Registration page. 2.Enter invalid input in address field & fill all fields. 3.Tap on Register.	address field: 545155 545155 FGHF AHGGAV #\$\$\$ \$%% y%\$%\$# ^^^^^HJJH^727wjheuj	The Address field should reject invalid characters with undefined length limit & show a validation message.	The Address field accepts any input without any limit.	FAIL
	PTM_RGL_65	Verify that the Landmark field rejects numbers, spaces, and special characters, restricting the input length.	1.Open the Registration page. 2.Enter a very long input with mixed characters & fill all fields. 3.Tap on Register.	Landmark field: GH64783@%\$ \$^&^% *&^TYGHKUJBNHBGVCDG GVB&^ %\$#\$% ^&FXCGVHBNBVCXVBNM GVBFDSD*&^%\$#@%\$%^	Landmark field should accept valid characters with limited length.	Landmark field accepts any characters, including special characters and numbers, with no length limit.	FAIL
	PTM_RGL_66	Verify that the Pincode dropdown displays all options & allows selecting one option correctly.	1.Open the Registration page. 2.Tap on the Pincode dropdown field & select one. 3. Fill all fields & click Register.	pin code: 695009/attukal	The dropdown should show all pincodes with place names, allow selecting only one, and display the selected pincode correctly.	The dropdown shows pincodes and allows selecting one correctly.	PASS
	PTM_RGL_67	Verify that the Password field restricts input to exactly 4 digits.	1.Open the Registration page. 2.Try to enter less than &greater than 4 digits in password field & observe.	password: 123 or12345	The Password field should allow only exactly 4 numeric digits.	The system rejects passwords with less than 4 digits and restricts input beyond 4 digits.	PASS

	PTM_RGL_68	Verify that the entered password is masked with dots/asterisks while typing.	1.Open the Registration page. 2.Type password & observe it is masked.	password:1234	The entered password should be displayed in masked form.	Password input is masked with dots while typing.	PASS
	PTM_RGL_69	Verify invalid characters are not accepted in Password field, preventing registration.	1.Open the Registration page. 2.Enter invalid characters in the Password field. 3.Fill all fields with valid data & click Register.	password: dfgf or \$@%	A validation message should be displayed indicating that only 4-digit numeric passwords are allowed.	A validation message is shown & registration is prevented.	PASS
	PTM_RGL_70	Verify that the Eye icon allows masking and unmasking of the password.	1.Open the Registration page. 2.Enter a password in password field. 3.Tap on the Eye icon to unmask & again tap to mask.	password :1234	Eye icon should toggle between masked and unmasked states when tapped.	Eye icon toggles between masked and unmasked correctly.	PASS
	PTM_RGL_71	Validate that the Register button is tappable and submits the form correctly.	1.Open the Registration page. 2.Fill all fields with valid input. 3.Click Register button.	V RK Nair, rejhsfv@gmail.com, 7278617877,7265687766, tirakat,mosque,695009/attukal,1234.	The Register button should submit the form and redirect the user successfully.	The Register button submits the form and redirects the user.	PASS
	PTM_RGL_72	Verify that a success message is displayed after successful registration.	1.Open the Registration page. 2.Fill all fields with valid input. 3.Tap Register button & Observe for message.	V RK Nair, rejhsfv@gmail.com, 7278617877,7265687766, tirakat,mosque,695009/attukal,1234.	After successful registration, a message like "Registration completed successfully" should be displayed.	No success message is displayed for successful registration.	FAIL
	PTM_RGL_73	Verify home page and hamburger menu after successful registration.	1.Observe the home page after registration& tap on the hamburger menu. 2.Verify that the links are present.	---	The hamburger menu after successful registration should contain links for logout,my orders & my profile.	After registration, the home page shows existing links plus My Profile, My Orders, and Log Out in the hamburger menu.	PASS
	PTM_RGL_74	Verify that the extra links in the hamburger menu redirect correctly.	1.Observe the home page after registration& tap on the hamburger menu. 2.Tap on each link & observe.	---	My Profile, My Orders, and Log Out links should redirect correctly to their respective pages.	My Profile, My Orders, and Log Out links redirect correctly to the Profile page, Orders page, and home page, respectively.	PASS
	PTM_RGL_75	Verify that the login section is present and correctly displayed on the registration page.	1.Open the Registration page. 2.Observe the top section of the page for the login section. 3.Check for essential elements.	---	The login section at the top of the Registration page should display essential elements correctly.	The login section displays the Primary Contact Number and Password fields, Login button, and Forgot Password link correctly.	PASS
	PTM_RGL_76	Validate successful login using correct contact number and password.	1.Open the login page. 2.Enter correct inputs in contact no & password fields. 3.Tap on login button.	primary no:7278617877, password:1234	User should be successfully logged in and redirected to the home page.	User is logged in successfully and redirected to the home page.	PASS
	PTM_RGL_77	Validate login behavior with incorrect contact number or password.	1.Open the login page. 2.Enter correct no & wrong password or wrong no & correct password. 3.Tap the login button.	primary no:7278617876, password:1234 primary no:7278617877, password:1238	The system should show "Invalid number" for unregistered numbers and "Incorrect password" for wrong passwords, preventing login.	Wrong number or password always shows "Incorrect password" message, preventing login.	FAIL

	PTM_RGL_78	Validate system behavior when login fields are left empty.	1.Open the login page. 2.Leave Contact Number and Password fields empty or any one left empty. 3.Tap the Login button.	contact no: <empty>, password:<empty> contact no:7278617877, password:<empty> contact no:<empty>, password:7278617877	System should display a validation message near the empty field and prevent login.	System shows "Please fill in field" near the first empty field and redirects focus there.	PASS
	PTM_RGL_79	Verify that the password is updated successfully when valid inputs are given in Forgot Password page.	1.Tap the Forgot Password link in the login section. 2.Enter a valid Contact Number, New Password, and Confirm Password. 3.Tap on save profile info.	contact no:7278617877 ,new password:1243,confirm password:1243	Password should get updated successfully with a message,& user can log in using the new password.	System displays a success message and allows login with the updated password.	PASS
	PTM_RGL_80	Validate that Password and Confirm Password fields must match.	1.Tap the Forgot Password link. 2.Enter a valid Contact Number & New Password in the Password field. 3.Enter a different value in the Confirm Password field. 4.Tap Save profile info.	contact no:7278617877 ,new password:1243,confirm password:1663	System should display an error message indicating that Password and Confirm Password do not match, preventing the password update.	Password mismatch error is displayed, and redirects to forgot password page.	PASS
	PTM_RGL_81	Verify only registered contact numbers are accepted in Forgot Password page.	1.Tap the Forgot Password link. 2.Enter unregistered Number & same Password in the Password fields. 3.Tap save profile info.	contact no:7278777777 ,new password:1243,confirm password:1243	Unregistered number should show "No matching record found for provided phone number."	Unregistered number is rejected with an appropriate error message.	PASS
	PTM_RGL_82	Verify that the Registration and Login pages load within acceptable time (under 3 seconds) on both mobile and desktop.	1.Open Registration and Login pages on desktop and mobile. 2.Observe the page load time.	---	Registration /Login page should load fully within 3 seconds on desktop and mobile devices.	Registration /Login page loaded quickly on both desktop and mobile without delay.	PASS
	PTM_RGL_83	Verify that sensitive data is transmitted over HTTPS and not exposed in URL/query parameters.	1.Enter credentials on Login or Registration page. 2.Observe the data is sent securely over HTTPS without appearing in the URL.	---	Data should be transmitted over HTTPS and not appear in URL/query parameters.	Sensitive data is transmitted securely over HTTPS and is not exposed in the URL.	PASS
	PTM_RGL_84	Ensure logout ends the session and redirects correctly.	1.Log in to pathayam.in . 2.Tap "Logout."	---	On tapping "Logout," the user session should end, and the user should be redirected to the Home page.	Logout ends the session, and the user is redirected to the Home page.	PASS
	PTM_RGL_85	Verify that login fields can be auto-filled by the browser.	1.Open login page. 2.Observe the username/phone number and password fields. 3.If previously saved, browser may automatically fill the fields.	---	Browser should auto-fill the fields for convenience.	Login fields are automatically populated with saved number and password.	PASS
	PTM_RGL_86	Verify that the user session remains active while navigating between pages.	1.Log in to pathayam. 2.Navigate to multiple pages. 3.Observe the behaviour.	---	The user session should remain active while navigating between pages, and the user can stay logged in until they explicitly log out.	User remains logged in & session does not expire unexpectedly.	PASS

	PTM_RGL_87	Verify auto logout and redirection to login after user inactivity.	1.Log in to pathayam. 2.Remain idle for about 20 min. 3.After the time period, try navigating to any secure page. 4.Observe.	---	The user should be automatically logged out after inactivity and redirected to the login page.	The user was automatically logged out after 20 minutes of inactivity and redirected to the login page.	PASS
	PTM_RGL_88	Verify that a user can register and log in with a 4-digit password containing leading zeroes.	1.Open pathayam home page. 2.Register with valid details and set 4-digit password 0078. 3.Log out. 4.Log in with the mobile number and password 0078.	---	User should be successfully registered and able to log in with the password containing leading zeroes.	The user was able to successfully register and log in using the password containing leading zeroes.	PASS
