

BUG REPORT

PATHAYAM - THE GREEN STORE								
Version: V0					Identified by: Revathy Krishnan			
Reported to: Ebin kurian					Tested Date: 16/09/2025			
Environment Details: Android,Windows,Google Chrome								
BUG ID	TEST ID	EXPECTED RESULT	BUG DESCRIPTION	STEPS TO REPRODUCE	SCREENSHOT	SEVERITY	PRIORITY	STATUS
DEF_PTM_01	PTM_HP_04	The logo should have proper contrast with the background color so that all its elements are clearly visible.	Bag icon in logo blends with white background, reducing visibility.	1.Open the home page. 2.Observe the logo visibility against the header background.	https://drive.google.com/file/d/1OuPV3bU5jdH6Qlq5y60KulKstgnjhXng/view?usp=drive_link	MEDIUM	HIGH	NEW
DEF_PTM_02	PTM_HP_17	Product images should be clear, descriptions visible, and spacing consistent in a properly aligned grid layout.	Product grid view is misaligned for some products, causing layout issues on the homepage.	1.Open the home page. 2.Scroll through product listing. 3.Observe some product tiles are not aligned correctly.	https://drive.google.com/file/d/1OBGdr1Y4vfZfUEBUahvIm15ID0XqdAMl/view?usp=drive_link	MEDIUM	HIGH	NEW
DEF_PTM_03	PTM_HP_18	The Eye button should be visible for all applicable product sections, allowing users to view product details.	Eye button missing in some product sections; only appears in Budget Kit, Small Bazar, Big Bazar, and Local Produce.	1.Open the home page or product listing page. 2.Check for the Eye button on various product sections. 3.Note which sections have the Eye button and which do not.	https://drive.google.com/file/d/11ZcaCmXQJbWrNPJbF9DkCjxSiXWPMUYN/view?usp=drive_link , https://drive.google.com/file/d/1OBGdr1Y4vfZfUEBUahvIm15ID0XqdAMl/view?usp=drive_link	ENHANCEMENT	HIGH	NEW
DEF_PTM_04	PTM_HP_20	Tapping a banner should redirect the user to the corresponding product page.	Home page banners are not clickable and do not redirect to related product pages.	1.Open the Pathyam home page. 2.Tap on any banner. 3.Observe whether it redirects to the related product page.	https://drive.google.com/file/d/1XavF_Vk90qEZk9ZMtKcNybvbQERH0wrv/view?usp=drive_link	ENHANCEMENT	HIGH	NEW
DEF_PTM_05	PTM_HP_22	More products should load automatically on scroll if infinite scroll is enabled.	More products do not load on scroll; infinite scroll is not implemented, stopping at the last section.	1.Open the Pathyam home page. 2.Scroll down through the listed products. 3.Observe whether additional products load automatically or if scrolling stops.	https://drive.google.com/file/d/1NB36o1OOvwQZBgxGosy5K5eX3LOTerYD/view?usp=drive_link	ENHANCEMENT	MEDIUM	NEW
DEF_PTM_06	PTM_HP_27	Upon submission, the contact form should display a success/confirmation message and clear fields appropriately.	The contact form clears fields on submission without showing a confirmation message, leaving users uncertain if it was sent.	1.Open Contact link on home page. 2.Enter valid information in all fields. 3.Tap the Send Message button. 4.Observe whether a confirmation message is displayed.	---	MEDIUM	HIGH	NEW
DEF_PTM_07	PTM_HP_28	The contact form should display validation errors and retain user data for correction.	Form clears fields without showing error messages for empty or invalid inputs, preventing users from correcting data.	1.Open the contact or input form on Pathyam. 2.Leave required fields empty or enter invalid data. 3.Click submit & observe behavior.	---	MEDIUM	HIGH	NEW
DEF_PTM_08	PTM_HP_29	Tapping the store address should open Google Maps with the correct store location.	The store address is not tappable, so users cannot open Google Maps to view the store location, preventing easy navigation.	1.Open the Pathyam store location section in footer. 2.Attempt to tap the store address. 3.Observe whether it redirects to Google Maps.	---	ENHANCEMENT	MEDIUM	NEW
DEF_PTM_09	PTM_HP_37	All homepage sections should remain visible, properly aligned, and responsive across different window sizes.	Homepage layout breaks on smaller browser sizes; some sections disappear or are misaligned, affecting usability.	1.Open the Pathyam homepage in a desktop browser. 2.Gradually reduce the browser window size. 3.Observe the layout, alignment, and visibility of all sections.	---	HIGH	HIGH	NEW
DEF_PTM_10	PTM_HP_39	Homepage should be fully visible and properly aligned on mobile devices without requiring desktop mode.	Homepage layout is not mobile-responsive; sections display correctly only in desktop site on mobile.	1.Open homepage on small, medium, and large mobile screens. 2.Switch orientation from portrait to landscape. 3.Observe results with the desktop site display.	---	HIGH	HIGH	NEW

DEF_PTM_11	PTM_RGL_48	Mandatory fields should be marked with a red star (*) and optional fields clearly indicated.	Registration form does not indicate mandatory or optional fields, making it unclear which inputs are required.	1.Open the Registration page. 2.Check each field & observe mandatory fields are marked with a red star.	---	MEDIUM	MEDIUM	NEW
DEF_PTM_12	PTM_RGL_49	After successful registration, the user should be redirected to the confirmation or home page with a success message displayed.	Registration completes successfully but no success message is displayed, leaving users unsure if the process was completed.	1.Open the Registration page. 2.Fill in all required details correctly. 3.Submit the registration form. 4.Observe the post-registration behavior.	---	ENHANCEMENT	MEDIUM	NEW
DEF_PTM_13	PTM_RGL_50	The system should prevent registration and display validation messages for all empty mandatory fields.	Registration form validation only highlights the first empty field, not all mandatory fields, allowing incomplete submission.	1.Open the Registration page. 2.Leave multiple mandatory fields empty. 3.Tap on Register. 4.Observe which fields show validation messages.	---	MEDIUM	MEDIUM	NEW
DEF_PTM_14	PTM_RGL_53	The Name field should accept only valid alphabets and reject numbers or unwanted blank spaces with an error message.	The Name field accepts numbers and blank spaces instead of restricting input to valid alphabets, leading to invalid user data.	1.Open the Registration page. 2.Enter only digits with blank spaces in Name field. 3.Fill valid details in all fields and tap Register.	---	MEDIUM	HIGH	NEW
DEF_PTM_15	PTM_RGL_54	The Name field should restrict input to a maximum (30-50 characters) and display a validation message if the limit is exceeded.	Name field accepts unlimited characters without restriction, causing potential data and usability issues.	1.Open the Registration page. 2.Enter more than 50 characters in the Name field. 3.Fill out all required fields. 4.Tap Register.	---	MEDIUM	MEDIUM	NEW
DEF_PTM_16	PTM_RGL_55	The system should display a clear validation message near the email field and prevent registration when an invalid email domain is entered.	Registration allows invalid email domains without showing a validation message near the email field.	1.Open the Registration page. 2.Enter an invalid email id 3.Fill out all fields correctly and try to register.	---	MEDIUM	HIGH	NEW
DEF_PTM_17	PTM_RGL_56	The system should verify the email ID through OTP or confirmation and prevent registration with non-existing emails.	Registration accepts non-existing email IDs without verification, allowing invalid accounts to be created.	1.Open the Registration page. 2.Enter non-existing email ID in email id field.	---	HIGH	HIGH	NEW
DEF_PTM_18	PTM_RGL_57	The Mobile Number field should accept a maximum of 10 digits only and prevent additional input.	Mobile Number field does not enforce a 10-digit limit; extra digits are accepted and displayed on screen.	1.Open the Registration page. 2.Enter more than 10 digits in the Mobile Number field. 3.Observe the behavior of the field and whether additional digits are displayed.	---	ENHANCEMENT	MEDIUM	NEW
DEF_PTM_19	PTM_RGL_60	The system should send an OTP to the provided mobile number and allow registration only after successful verification.	Registration allows any mobile number without OTP verification, bypassing mobile ownership validation.	1.Open the Registration page on Pathyam. 2.Enter any mobile number in the Mobile Number field. 3.Fill out all other required fields. 4.Tap on register. 5.Observe that registration succeeds without verifying the mobile number.	---	ENHANCEMENT	HIGH	NEW
DEF_PTM_20	PTM_RGL_63	The system should display a validation message and prevent using the same number in both fields.	Registration allows the same number in both Mobile and Alternate Number fields without validation.	1.Open the Registration page. 2.Enter the same number in both Mobile and Alternate Number fields and fill all other required fields. 3.Tap on Register. 4.Observe whether an error or validation message appears.	---	MEDIUM	HIGH	NEW
DEF_PTM_21	PTM_RGL_64	The Address field should restrict input to a reasonable length and reject invalid characters, displaying a validation message if the input is invalid.	The Address field accepts unlimited input and invalid characters without showing any validation message.	1.Open the Registration page. 2.Enter a long string or invalid characters in the Address field. 3.Submit the form. 4.Observe the behavior of the Address field.	---	MEDIUM	MEDIUM	NEW

	DEF_PTM_22	PTM_RGL_65	The Landmark field should accept only valid characters and enforce a reasonable length limit, displaying a validation message for invalid input.	Landmark field accepts any characters, including numbers and special characters, with no length restriction, allowing invalid input.	1.Open the Registration page. 2.Enter a very long input with mixed characters & fill all fields. 3.Tap on Register. 4.Observe whether the field restricts input or displays a validation message.	---	MEDIUM	MEDIUM	NEW
	DEF_PTM_23	PTM_RGL_72	After successful registration, a clear success message (e.g., "Registration completed successfully") should be displayed.	Successful registration does not display a confirmation message, leaving users unsure if the process was completed.	1.Open the Registration page. 2.Fill in all required fields with valid information. 3.Tap on register. 4.Observe whether a success message is displayed.	---	MEDIUM	MEDIUM	NEW
	DEF_PTM_24	PTM_RGL_77	The system should show "Invalid number" for unregistered numbers and "Incorrect password" for wrong passwords, preventing login.	Login displays "Incorrect password" for both unregistered numbers and wrong passwords, not distinguishing between the two cases.	1.Open the Login page. 2.Enter an unregistered mobile number and any password, then attempt to login. 3.Enter a registered number with an incorrect password and attempt to login. 4.Observe the error messages displayed.	---	MEDIUM	LOW	NEW
	DEF_PTM_25	PTM_BRC_91	Users should be able to filter products by category and price, and add products to a Wishlist.	The product category filter, price filter, and Wishlist options are missing from the product listing page.	1.Open the product browsing page. 2.Look for category filter, price filter, and Wishlist option. 3.Observe that none of these options are available.	---	ENHANCEMENT	HIGH	NEW
	DEF_PTM_26	PTM_BRC_92	Product images should open in a gallery view with navigation options for better detailed viewing.	Product images do not open in a gallery view; only zoom is available, limiting detailed viewing.	1.Open the product browsing page. 2.Tap on any product image. 3.Observe that the image only zooms in. 4.Note that no gallery view with navigation options is available.	---	ENHANCEMENT	MEDIUM	NEW
	DEF_PTM_27	PTM_BRC_95	Only products that exactly match the search keyword or are closely related should be displayed.	The search function displays the correct results but also includes unrelated products, making it difficult for users to find the exact item quickly.	1.Open the product browsing page. 2.Enter a product name in the search bar. 3.Tap Search. 4.Observe that unrelated products are displayed in the results.	---	MEDIUM	MEDIUM	NEW
	DEF_PTM_28	PTM_BRC_96	A clear message like "No products found" should be displayed for non-existing products.	When searching with a non-existing product name, the search bar clears and a large "Search" text appears, instead of showing an appropriate message.	1.Open the product browsing page. 2.Enter a non-existing product name in the search bar. 3.Tap Search. 4.Observe that the search bar is emptied and only a large "Search" text appears, without any proper message.	---	ENHANCEMENT	MEDIUM	NEW
	DEF_PTM_29	PTM_BRC_97	The system should either display a clear validation message (e.g., "Enter a product name") or remain idle without refreshing the page.	When an invalid or empty search is performed, the system displays a list of random products instead of showing a validation message or remaining idle.	1.Open the product browsing page. 2.Enter an invalid keyword or leave the search field empty. 3.Tap Search. 4.Observe that a list of random products is displayed instead of a validation message or no action.	---	ENHANCEMENT	MEDIUM	NEW
	DEF_PTM_30	PTM_BRC_104	A clear message like "Your cart is empty" should be displayed when no products are in the cart.	The cart incorrectly displays Delivery Charge ₹40, Bag Charge ₹10, and Total ₹50 even when no products have been added.	1.Open the product browsing page. 2.Navigate to the Cart without adding any products. 3.Observe that charges are displayed instead of an "Your cart is empty" message.	---	ENHANCEMENT	HIGH	NEW
	DEF_PTM_31	PTM_BRC_105	The user should be redirected to the product details page when tapping on a product in the cart.	When a user taps on a product inside the cart, the system does not navigate to the corresponding product details page, preventing users from viewing detailed information.	1.Open the product browsing page. 2.Add a product to the cart. 3.Go to the Cart page. 4.Tap on the product. 5.Observe that it does not navigate to the product details page.	---	ENHANCEMENT	HIGH	NEW

	DEF_PTM_32	PTM_BRC_106	The cart should allow users to increase or decrease product quantities and update totals accordingly.	Users are unable to change the quantity of products directly within the cart, preventing them from adjusting their order without going back to the product page.	1.Open the product browsing page. 2.Add a product to the cart. 3.Navigate to the Cart page. 4.Try to change the quantity of the product. 5.Observe that the quantity cannot be updated.	---	ENHANCEMENT	MEDIUM	NEW
	DEF_PTM_33	PTM_BRC_118	The product page should show ratings and review count, and if implemented, clicking them should navigate to detailed reviews.	Product page does not display ratings or review count; users cannot view or navigate to detailed reviews.	1.Open the product browsing page. 2.Observe whether ratings and review counts are displayed. 3.Note that the feature is absent.	---	ENHANCEMENT	MEDIUM	NEW
	DEF_PTM_34	PTM_BRC_119	The entire cart table should be visible on all devices without any columns being cut off or hidden.	The cart table is not fully visible on mobile devices, with some columns being cut off or hidden, affecting usability.	1.Open the product browsing page. 2.Add products to the cart. 3.Navigate to the Cart page. 4.Observe that some columns of the cart table are cut off.	---	MEDIUM	HIGH	NEW
	DEF_PTM_35	PTM_BRC_121	Cash on Delivery should be visible and selectable as a payment option in available modes of payment.	Cash on Delivery option is missing from the payment methods on the cart/checkout page.	1.Open the product browsing page. 2.Add a product to the cart on Pathyam. 3.Proceed to the checkout page. 4.Check the available payment options. 5.Observe that COD is missing.	---	ENHANCEMENT	MEDIUM	NEW
	DEF_PTM_36	PTM_BRC_124	Cart should display stock availability or low stock warnings for products.	Cart does not display stock availability warnings for low-stock products.	1.Add a product with low stock to the cart. 2.Navigate to the cart page. 3.Review the product details in the cart. 4.Check for any stock availability message.	---	ENHANCEMENT	MEDIUM	NEW
	DEF_PTM_37	PTM_BRC_125	The Order Summary page should provide a Cancel option allowing the user to cancel the order before payment.	Cancel option is missing on the Order Summary page to cancel order before proceeding to payment.	1.Navigate to the Cart page. 2.Review the order summary. 3.Check for the Cancel option before proceeding to payment.	---	ENHANCEMENT	MEDIUM	NEW
	DEF_PTM_38	PTM_PYT_127	A secure payment gateway page should open with the correct non-editable payable amount.	System redirects to razorpay.me/hoxo365 with an editable amount and QR code instead of a secure non-editable payment page.	1.Add products to the cart. 2.Proceed to checkout and select any payment option. 3.Tap Pay to complete the order. 4.Observe the redirection to the payment page.	---	HIGH	HIGH	NEW
	DEF_PTM_39	PTM_PYT_145	Enabling desktop site should not interrupt the payment flow; the user should remain on the secure Card/UPI payment page.	Enabling desktop site during payment redirects the user back to the manual amount entry page, disrupting the normal checkout flow.	1. Add products to the cart and proceed to checkout. 2.Tap Pay and go to payment page. 3.Enable Desktop Site in the browser. 4.Verify if the page redirects back to the manual amount entry page.	---	HIGH	MEDIUM	NEW
	DEF_PTM_40	PTM_PYT_146	Payment should be completed successfully on all devices, including laptops and desktops.	Payment should be successfully processed on all platforms. Currently, payments cannot be completed on a laptop browsers.	1.Open Pathyam on a laptop browser. 2.Add products to the cart. 3.Enter delivery details and tap Pay. 4.Observe whether the payment can be completed.	---	HIGH	HIGH	NEW
	DEF_PTM_41	PTM_POM_147	All profile details should be displayed exactly as entered by the user.	User profile details are displayed with uppercase letters even though they were entered in lowercase, causing inconsistency.	1.Tap on "My Profile" from the home page. 2.Observe displayed details.	---	ENHANCEMENT	MEDIUM	NEW
	DEF_PTM_42	PTM_POM_148	Name and contact numbers should be editable and saved correctly.	Name and contact fields on the Profile page are not editable, preventing users from updating their information.	1.Open the My Profile page. 2.Attempt to edit the Name and Contact Number fields. 3.Try saving the changes.	---	ENHANCEMENT	HIGH	NEW
	DEF_PTM_43	PTM_POM_153	A Delete Account option should be available on the Profile page to permanently remove an account.	The option to delete a user account is missing; users cannot remove their account in Pathyam.	1.Navigate to Profile. 2.Look for the option to delete or deactivate account.	---	ENHANCEMENT	MEDIUM	NEW

	DEF_PTM_44	PTM_POM_155	Success message should appear for valid updates; error messages should appear for invalid updates.	Profile updates do not show any success or error messages, leaving users unaware of the update status.	1.Open the My Profile page. 2.Make a valid change and save. 3.Make an invalid change and save. 4.Observe if any messages appear.	---	MEDIUM	MEDIUM	NEW
	DEF_PTM_45	PTM_POM_162	A Pay button should be displayed for orders with "Not Delivered" status, allowing users to proceed to payment.	"Not Delivered" orders do not show a Pay button, preventing users from completing pending payments.	1.Log in to Pathyam. 2.Navigate to My Orders. 3.Locate an order with status Not Delivered. 4.Check for the Pay button.	---	HIGH	HIGH	NEW
	DEF_PTM_46	PTM_POM_163	My Orders page should be fully responsive, with all details visible and properly aligned on all devices and screen sizes.	My Orders page has a responsiveness issue; details are cut off or misaligned on mobile and desktop.	1.Open the My Orders page on a desktop browser and resize the window to different widths. 2.Open the My Orders page on different mobile devices. 3.Observe layout, alignment, and visibility of order details.	---	ENHANCEMENT	LOW	NEW
	DEF_PTM_47	PTM_POM_164	An Order History section should be available, displaying all past orders.	Order History feature is missing, preventing users from viewing past orders.	1.Log in to Pathyam. 2.Navigate to the Orders/My Orders section. 3.Check for an Order History feature.	---	ENHANCEMENT	MEDIUM	NEW
	DEF_PTM_48	PTM_POM_165	The user should be redirected to the login page while trying to access profile page via url.	Logged-out users see PHP errors instead of being redirected to the login page when accessing the Profile page.	1.Log out of Pathyam. 2.Try accessing the Profile page directly via URL. 3.Observe the behavior.	https://drive.google.com/file/d/10jmFXUY1DYj0ha08mtuAzYKI0lkjZG6c/view?usp=drive_link	HIGH	HIGH	NEW
	DEF_PTM_49	PTM_POM_166	User should be redirected to the login page; no secure data or errors should be visible.	After logout, accessing secure pages via the back button shows PHP errors instead of redirecting to the login page.	1.Log in to Pathyam. 2.Navigate to a secure page. 3.Log out. 4.Press the browser Back button. 5.Observe the behavior.	---	HIGH	HIGH	NEW
	DEF_PTM_50	PTM_POM_167	The system should display a proper error message or redirect without exposing PHP errors.	Manipulating URL parameters shows PHP errors instead of handling invalid input gracefully.	1.Log in to Pathyam. 2.Navigate to any page with URL parameters. 3.Manually modify the URL parameters. 4.Observe the behavior.	https://drive.google.com/file/d/1quP4sGNTTKj9PWT3l1LCd8YBNst8VUsJ/view?usp=drive_link	HIGH	HIGH	NEW
